

Change for life

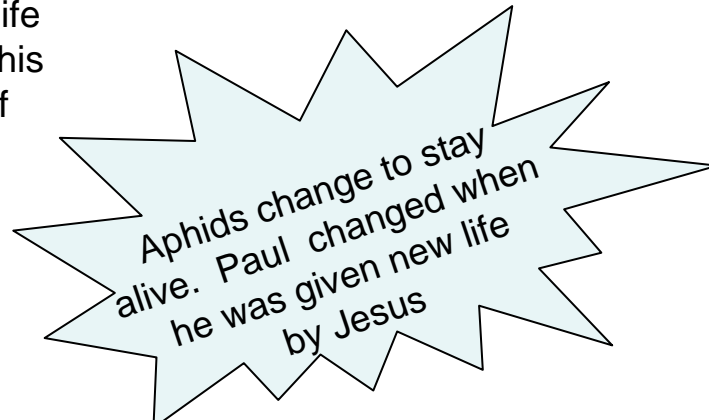

Mum was surprised by how many aphids were on her roses. Aphids drink the sap of plants. Roses are one of their favourites. They are usually born without wings and live their whole life (about 7-10 days) on one plant. But if the plant is overcrowded or dying, the aphids will be born with wings so they can fly to another plant and have a better chance at life. This is an amazing change. Imagine if we could do that.

Listen to God! Acts 26:10-18

Paul is a person in the Bible whose whole life changed when he came to know Jesus as his Saviour. We learn about him in the book of Acts and also in letters he wrote that are in the Bible.

Match up some of the changes that happened to Paul by drawing lines from what he was like before to after he met Jesus.

Before	After
Tried to hurt and kill Christians	Loved Christians and started new churches
Hated Christians and churches	Told Gentiles the good news about Jesus
Put Christians in prison	Became a follower of Jesus – a Christian
Wouldn't have anything to do with Gentiles (non-Jews)	Risked his life so others could become Christians
Was a strict Jew – A Pharisee	Was in prison for being a Christian

Talk to God!

Look up 2 Corinthians 5:17

The Bible says we change into new people when we put out trust in you Lord Jesus and become Christians.

If you are a Christian, thank God for the new life he has given you.
