

Are we there yet?

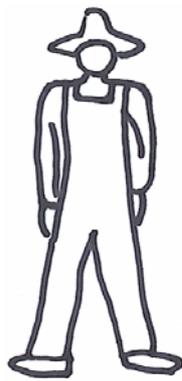

On the first few days of their trip, the children thought they would become bored with driving for hours at a time. But mum made up a “Spotto” game and they soon became occupied trying to be first to spot the things on the list – a camel, a yellow flower, a windmill, fence, cow, an emu. Travelling through places they had never been before became exciting.

Vicki, Kaylee and Sean have never been to where Jesus lived either but sometimes they play games of “Spotto” in their Bible.

Try this one. Look up Mark 4:1-8

When you have spotted the things on the list, colour or circle them and write the verse they are first spotted in.

Listen to God!

Mark 4:14-20

Jesus told this story to show that people respond to God’s message in different ways. Some take no notice, some a little and some a lot. When we listen to and obey God’s message it grows in us.

Binara, the nose- frilled neck lizard, asks,

“What is your favourite Bible story and what do you learn from it?”

Talk to God!

Lord Jesus, thank you for the things we can “spot” in the Bible that help us understand God’s message to us. Help us to listen, to trust and obey so we can be like the plants that had lots of seeds.
