

# So beautiful

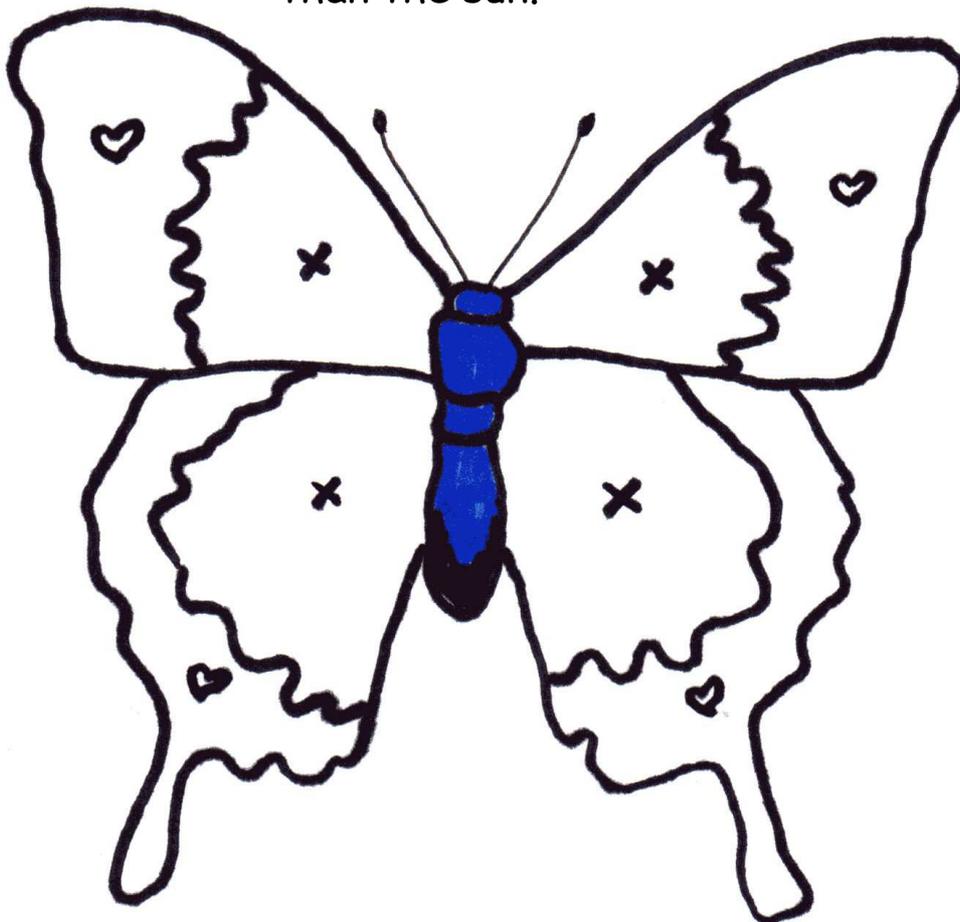

Penny platypus says, "Ulysses Butterfly lives in Northern Australia. His bright blue wings flash and shine as he flies through the trees. He is beautiful."

There are not enough words to describe how beautiful God is. His beauty shines brighter than the sun.

God's book the Bible says, "Behold (see) the beauty of the Lord."

Psalm 27:4

Colour the parts of the butterfly with an X bright blue and the parts with a ♥ black.

I can say to God, "Thank you Lord God that your book the Bible teaches us about how beautiful you are."
