

Scared of the dark

Kaylee insisted on having a light on when she went to bed at night. Because they were away from towns, there were no street or house lights. Most nights lately the moon was hidden by clouds or too small to give any light. It was very dark. And then there were the animal noises!

But as long as there was a light outside the tent, Kaylee felt cosy and secure in her sleeping bag. And mum always read some of her favourite Bible verses or a special story as they were going to bed, so she had something good to think about.

Talk to God!

Tell God about what makes you scared. Ask him to help you remember that he will take care of you.

Thank you heavenly father that you watch over us when we sleep. Thank you for being with us and protecting us all the time.

Listen to God!
